

# Technical Data Sheet

## Information About the date of production

Tel 336-2881613 sales@jorlink.com

Several customers have been asking us about the date of production of our products and how to determine the Shelf life.

The shelf life of Ferro laser marking pastes is 12 months (Up to 24 months under optimal conditions) from the manufacturing date. All pastes should be shaken, stirred or mixed prior to use to ensure consistency.

For example, at the base of the bottle we can find a number that represents a code, that for our archives, is the date when the lot was produced: 91025. To know the exact day of your product you have to communicate through the following links:

<https://www.ferro.com/thermark>

<https://www.ferro.com/contact>

The shelf life of Ferro laser marking aerosol products is 12 months from the manufacturing date. All aerosol products should be shaken. In the case of aerosol cans, you will find a five-digit code, the first two digits signifying the year of production and the other three indicating the day of the year. Example 21317. Year 2021 day 317 of the year.

The shelf life of Ferro laser marking tape products is 24 months from the manufacturing date
